

Catalogue Price Update Communication

29 November 2024

Dear customers,

Please be advised that there will be a comprehensive review of catalogue prices implemented on the 1st of January, 2025.

Per previous correspondence, there will be further increases on higher GWP refrigerants. Our team is here to support you with the identification and selection of alternative refrigerants for your new applications.

Customers can access their updated 'Net' and 'List' pricing via Kirby smart@ccess and/or make contact with their sales representative to get the details on the changes as they are available.

Price communications will continue to be posted on our website and through the notifications section of smart@ccess when these take effect. It is very important to note that not all refrigerant or copper price changes will come with a 30 day notice period.

Best regards,

Brett Hedge - General Manager
