

Catalogue Price Update Communication – 28/02/25

Dear customers,

Please be advised that we will be introducing price changes as follows:

Effective 10th of March, 2025 - Hard Drawn Copper and Paircoil

Effective 1st of April, 2025 - Refrigeration equipment, Air Conditioning equipment, higher GWP refrigerants (R404A, R507, R410A) and parts.

We understand the rapidly changing pricing on Refrigerants could be causing concerns but assure you that our team is here to support you with the identification and selection of alternative refrigerants for your new applications.

Customers can access their updated 'Net' and 'List' pricing via Kirby smart@ccess and/or make contact with their sales representative to get the details on the changes as they are available.

Price communications will continue to be posted on our website and through the notifications section of smart@ccess when these take effect.

It is very important to note that not all refrigerant or copper price changes will come with a 30-day notice period but we will endeavour to do this where possible. Firm quotes will be held for 30 days and 60 days if orders are placed via Smart@ccess.

Best regards,

Brett Hedge - General Manager
